“ *My brother Gerry Weitz and I met Bill at Central Catholic while participating in band. . We enjoyed many good times with Bill during high school sharing our interests in music, muscle cars and sailing. I lost contact with Bil soon after enlisting in the military in 1970. It will be a joy to catch up with him again in heaven. I offer prayers of comfort to Peggy, Christine and Mark.*

“ Thank you for the shared memories Jack. It's a good way to remember Bill. I recall as if it were yesterday the day in Bedford, riding in a red convertible, top down, sunny with the wind hitting us in the face, radio blaring "Born Free" singing along. Those were glory days!

“ I was also a classmate of Bill's at Central and also a dorm mate at Penn State freshman year. We became lifelong friends, but I regrettably lost touch with Bill over the last few years. My wife and I socialized with Bill and Peggy in the seventies and always had a great time...good memories.
Bill was one of a kind and an unforgettable character. My sympathies to Peggy, Christine and Mark.

“ Bill was a classmate at Central Catholic. Well liked and funny, his photo is so him. As the memory flower guy for the class of '66, I will be sending, in lieu of flowers, a monetary tribute to CDCHS in Bill's name. RIP, Bill.

“Wow, wow, Wow! I am truly saddened to hear of the loss of Bill. We were both friends of another Bill. Bill W.. We shared many personal experiences together. I am so sorry that I did not get a chance to call him and discuss a situation he had volunteered to help me through. I loved to hear Bill share his life experiences and he was an equally good listener. I know he is with God now, I witnessed his confession many times and know of his daily decision to turn his life over to God on a daily basis. I send my deepest sympathy to his family, he was truly someone I loved, admired and respected.

“Peggy, Christine and Mark, memories I have a few..

Sharing an algebra class with Bill on a warm spring day. The windows were finally open and Bill and I were working hard on watching the Winchester Thurston girls field hockey team across Fifth Ave. Little wonder we were moved from window desk to interior desks by Brother "Whomever."

Dances in the school gym, us lurking in the background trying to summons enough courage to ask a girl to dance. Me sharing the thought a girl was "cool" and Bill getting her phone number and a date before I knew it...

Sharing endless conversations about fast cars and a Jaguar in need of restoration. We got that Jag around the block but once before parking it exactly as we found it. Transmissions without synchronizers was quite a problem for novice teenage drivers.

A midnight ride through Mt. Lebanon with light and sirens. That four door Tempest with a standard transmission was a sleeper and thankfully we didn't turn down any dead end streets. I made up my mind that night that the next time I wanted to be the pursuer and not the pursuee.

Weekends riding horses in Bedford. No question that Peggy got the difficult horse and we all knew why. Four of us hurtling down country roads with you at the wheel of my ratty old V.W. We passed that deer before we even saw it, but I can still hear its hooves rattling on the asphalt as it ran away.

When Christine came along sharing the realization that we needed to get serious and that a G.T.O. like Chips would have to wait.

Thanks for being the friend everyone needed to survive the 60's. Love ya. See you on the other side.

Jack
