“ My heart sank when I read the news of your passing dear sweet friend... I had not heard from you in a while and prayed you were OK... thank you for your friendship, the laughter, your love of Labs young and old and all in between. I am so happy you made it to my house for Lab camp that year, even if it did snow in May and Carol had on shorts and flip flops... May you run happily at the bridge with all who have gone before you. May God bless your loved ones and friends with happy memories until you are reunited forever. Godspeed peggy. Give Katherine and Bree a smooch from auntie please!

“ Peggy Hon - I can NOT believe you are gone. I only knew you through the Web, but I can not forget your infectious positive spirit and joy with your dogs. And now you are being greeted at Rainbow Bridge by your dear K. Shine on us, dear girl.

“ I also 'met' Peggy through a Labrador internet list. Rest in Peace (and I believe) play forever with all of the labbie friends across the Bridge. You will be missed greatly Peggy - you were a wonderful, caring soul.

“ I also knew Peggy through the lab lists. I truly admired her commitment to senior labs and the love that she lavished on them. I will never forget the K-train that we set up when one of the other listers had a lab camp that neither of us was able to attend. K flew the plane and Sam was the co-pilot. We had lost touch in the last few years, but we still thought of her often. Good rest and Godspeed, Peggy. I know K and Bree were waiting for you with wagging tails at the Bridge.

“ I knew peggy as a friend when we lived on Fripp. Our labs brought us together. I missed her when she left Fripp. I hope her life was as happy as her Facebook picture makes her look. Rest in peace, peggy.

“ Peggy, dearest friend, so terribly sad to find you have left us. I remember most specially your generosity, your joy, your devotion to friends and labbies. God bless you my friend. My deepest condolences to all who loved Peggy, including all my dear friends I see have posted before me. Peggy, although many of us had lost touch, you see you still owned your own precious place in our hearts and you always will. Please love my Mike and Katy - it's Mike who actually led me to you on his 1st birthday after his passing almost a year ago. You go ahead and make up those Pinochle rules while you play with our kids at the bridge and with the angels. Love you!

“ We never met in person, but I knew of her and her labs through an online list, and she was always a delight. A new star shines for her as she is with her labs forever.
