“ Bobby Gas,

You broke the mold my friend. There will never be another Robert Glasser. When you entered rooms, heads turned. Your unique vision of the world was like no other. I will always remember the times we shared. Until we meet again.

Rest in peace my friend.

EP

“ Grew up with Bob, Gas Glasser. We spent many days together
playing baseball, flipping cards. Played football with him at SJHS.
He played bass guitar in our garage band and always had a joke
and a laugh to share. We had a great time at our GHS 40th reunion.
Lost touch for a while but got together with him and some other
friends a couple of years ago. Will miss you, rest in peace old friend.
