“ Barb I want to send my sympathy to you and your entire family - along with Bill's. I've know Bill since we were in 7th grade and he was always a great guy, great friend but more than that he was a great human being. One memory that stands out most, and speaks to his character, was his graduation party. He left his own party to go on a call with the fire department....only Bill....but that's who he was... a wonderful person.
